Aux élèves,
Aux parents d'élèves,

Cette année scolaire, les élèves de 3ème auront trois heures d'anglais par semaine ; deux heures en classe entière et une heure en AP (Accompagnement Personnalisé en mi-groupe.) En AP , les élèves travailleront environ 15 heures dans l'année avec Labopractice (laboratoire de langues) en salle informatique.

Chaque cours, les élèves auront besoin du cahier. Le porte vues reste à la maison et les élèves l'utiliseront pour ranger les évaluations d'anglais. Les cahiers seront vérifiés et notés régulièrement.

La régularité est importante pour l'apprentissage : il y aura des devoirs pour chaque heure de classe entière et souvent aussi pour l'heure d'AP. (mémorisation de vocabulaire, verbes irréguliers, leçons, préparations des prises de parole en continu, réalisation de tâches finales etc.)
Les devoirs à faire seront notés sur Pronote, mais l'élève est obligé de les noter aussi dans l'agenda.

Un devoir commun d'anglais aura lieu au deuxième semestre.

Je profite de cette lettre d'information pour souligner l'importance d'être 'en contact' avec la langue anglaise ; regarder des séries / des films en Version Originale, lire des livres et des magazines adaptés niveau A2/B1 (disponibles au CDI ou dans ma salle de classe), écouter des chansons etc.

N'hésitez pas à me contacter (carnet de liaison ou Pronote – communication par Papillon) si vous avez des questions ou si vous avez des informations à transmettre.

Have a great school year!

This document is a drawing. We can see the head of the Statue of Liberty. The Statue of Liberty is situated on Liberty Island, near Manhattan in New York City.
The Statue of Liberty is America's greatest symbol of freedom. In her eyes, we can see buildings and planes. The Statue is crying, because the terrorist attack on September 11th 2001 destroyed the Twin Towers.

On Sept 11th he had a meeting at 9am so he left home at 7:30. He arrived at his office at 8:30 and when the first plane hit, he was having a cup of coffee and looking out of the window. There was a terrible explosion and he felt the tower swaying. Then somebody shouted: "Evacuate!".

The elevators were no longer working, so everybody started walking down in the dark, calmly at first. Jack was reaching the 30th floor when he met the first firefighters rushing up to help with the evacuation.

It was then that he first called me on his mobile. I was frantic. I was watching television and I knew. I told him to get out. I didn't say it. I screamed it. I yelled it! Jack tried to reassure me. He didn't know about the plane! "Calm down, I'll call you as soon as I'm out," he promised.

A few minutes after his call I saw the second plane hitting the South Tower. From then on it was a nightmare. I waited and waited for Jack's call. It was endless. Then it came and I heard his voice saying : "I'm
